## International Education Administrators Seminars

Fulbright International Education Administrators (IEA) Seminars are fully funded opportunities for U.S. higher education administrators to participate in intensive, two-week seminars abroad to learn about other countries' higher education systems.

By participating in a Fulbright IEA seminar, you can build your institution's capacity for international education, gain a cross-cultural perspective, and open doors to collaboration with colleagues and students throughout the world.

## Immerse Yourself in Another Higher Education System

Participants build their network, make connections, and develop new perspectives to further international engagement at their own institutions. Fulbright covers all travel and accommodation costs and arranges the group's itinerary. Activities include:

- Campus visits to a wide range of universities and colleges
- Briefings from faculty and administration at public and private higher education institutions as well as from leading educational experts and government officials
- Tours of historical and cultural sites

"My experience as a Fulbright IEA participant was outstanding. I made important gains in my professional research and networking as well as having the personal transformation of learning about a new culture."

- · Application deadline: November 1

This seminar has played a transformative role for me... I am more adept at engaging and understanding cultural interactions with my Korean colleagues and students. I also now have the knowledge and enthusiasm to encourage more students to study in South Korea for their semester abroad. This has been the highlight of my career thus far, and I will encourage all of my colleagues in international education to apply for an IEA seminar."
