General Information About the Application

The application is supported by most browsers. We highly recommend that you use a current version of Google Chrome, which supports Windows, Mac, and Linux platforms.

Prior to starting an application, please complete the following steps:

Step 1: Review the requirements for submitting an application
- Eligibility
- Award description
- Application guidelines

Step 2: Record your username and password in a safe place

Your email address is your username. When you create your account for your application, record your password in a secure place. If necessary, you can reset your password by clicking Forgot Your Password on the log-in page.

Step 3: Complete the application

You do not need to complete this application in one sitting or session. You can re-enter at any time to edit your application. However, once you SUBMIT your application, you CANNOT make changes to it.

To complete your application correctly, please read all instructions and answer all questions completely and carefully.

Additional tips:
- Do: Have these instructions and the award description available for reference.
- Do: Use proper capitalization and proofread. Avoid using all capital letters (e.g., FULBRIGHT) and/or all lowercase (e.g., fulbright); correct use/spelling: Fulbright.
- Do: Prepare answers to longer questions ahead; you can copy and paste responses into all text boxes.
- Do: Prepare required documents and save them in PDF format. This helps to preserve any formatting and special characters in your uploaded documents.
- Do: Answer all questions. Questions that are required are marked with an asterisk (*).
  - You will not be able to submit your application until all required items are complete.
- Do Not: Use special characters in text boxes, such as letters with accent marks.
- Do Not: Have the application open in multiple tabs in the same browser.

Step 4: Submit the application

Once you have entered all required information, including recommenders (and foreign language evaluators, if needed), review your application for errors.

When all information is correct and complete, submit your application.

Once you submit, you CANNOT make changes to your application.
Accessing the Application

- Application link: [https://apply.iie.org/fusc2024](https://apply.iie.org/fusc2024)
  
  **Note:** You may only apply to one award per application cycle (e.g., 2024-25 competition).

- If you started an application and/or applied already (e.g., 2020-21, 2021-22, 2022-23, and/or 2023-24), then you already have an application account.
  - Do NOT create a new account. You just need to login and create a new application.
  - Jump ahead to Returning Users (next page) and follow the instructions there.

New Users: Creating Your Application Account

Follow these steps if you have **not** started an application and/or applied for the 2020-21, 2021-22, 2022-23, or 2024-25 competition(s).

- Start with this link: [https://apply.iie.org/fusc2024](https://apply.iie.org/fusc2024)

- First-time users: click *Create an account* and follow the next steps to register.
  - Enter your email address, first name, last name, and your date of birth (Month-Day-Year) from the dropdown menus.
    
    **Note:** Use an email address that you use regularly and will be able to access for at least one year after submitting your application. This is the email address you will use to log in to your application account, and the address to which updates and notifications will be sent.

  - Your name must be entered exactly the way it appears (or will appear) on your passport.

- Click *Continue*.

- You will receive an email from IIE ([apply@iie.org](mailto:apply@iie.org)) with the subject, “Application Registration”, confirming you have created an account. The email will include a link to
the application and a temporary PIN.
- Open the link provided in the email: click “Access Account”. Then, enter the temporary PIN from the email.

- Next, create your secure password to complete your login. Make a note of your password for future reference.

**Returning Users (including reapplicants)**

If you started an application and/or if you applied for the 2020-21, 2021-22, 2022-23, or 2023-24 competition(s) and are reapplying for the 2023-2024 competition.

- Use this link: [https://apply.iie.org/fusc2024](https://apply.iie.org/fusc2024)
  - Please DO NOT create (another) application account to start a new application. This will actually make things more confusing: we have found it can be challenging to distinguish between accounts.
- Click Log in to continue an application and proceed to log in.

-Forgot your password? Click Forgot Your Password? and then enter your email address and birthdate and click Reset Password. You will receive an email from IIE (apply@iie.org) with the subject, “Password Reset”. Then, follow the instructions in the
email and then create a new password.

- If your password expired, you will be prompted to enter your email address and birthdate. You will receive an email from IIE (apply@iie.org) with the subject, “Password Reset”. Then, follow the instructions in the email, including entering your PIN and birthdate. You will likely need to create a new password.

**Notes:**

- If your email address has changed, you can email Scholars@iie.org and we can change your email address in the application system for you.

- If you have multiple email addresses and are not sure which one you used for your previous application, you can email Scholars@iie.org and we can check for you. (You can also try logging in, the system should let you know if that email address is not recognized.)

- Please DO NOT create a new application account with your new/other address.
  - Why not just create a new account? First, to minimize confusion trying to differentiate between accounts. Second, by using the same account for your application, some of the fields from your prior application can be filled in automatically in your new application – just be sure to check them over in case any details have changed.

- If you applied for the 2019-20 competition (in 2018) or earlier, you need to create a new application account using the New User instructions on the prior page.

**Creating Your Application**
